

Power distribution with RADOX® Technology

Electrify your business with our RADOX® high voltage premium solutions

Features

- Full automotive validation
- RADOX® technology
- Modular solutions with robust design
- Tested end-of-line
- High temperature range and excellent vibration performance

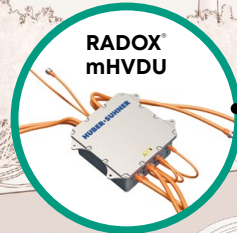

USPs

- Safe and reliable EMC screen connection
- High insulation resistance
- No melting and cracking at peak temperatures of 250°C
- Improved lead times
- Long operation times

Benefits

- Compact design for limited space requirements
- Suitable for harsh environments
- Scalability of inputs and outputs
- Off-the-shelf products
